**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-5 are rejected under 35 U.S.C. 102(e) as being unpatentable over Hinkle (US 6,442,533).

Hinkle discloses a trade capture system (MTCP) comprising:

- a first computer (52) having an interface for capturing executed trade data (or trade tickets) (col.19, lines 6-55);
- a second computer (64) for accepting the captured trade data and performing middle and back office processing on the same;
- a communication channel for communicating the captured trade data (or trade tickets) between the first and second computers (col.20, line 9-col.21, line 3);
- wherein the first computer is a client computer (col.106, line 36-col.107, line 10); and
- wherein the communication channel is the Internet, and the interface is a browser (col.106, line 36-col.107, line 10).
